

NORTH DAKOTA IMMUNIZATION INFORMATION SYSTEM

PROVIDER PATIENT LIST REPORT

The Provider Patient List report generates a list of all clients in the NDIIS that belong to your NDIIS provider site. A client is considered as belonging to your provider site if your site is their last provider visited excluding influenza vaccine, meaning your facility was the last one to enter a non-influenza vaccine in the client's record in the NDIIS.

1. The Provider Patient List Report is located under the *Patient Management Reports* report type in the NDIIS reports module.

Age In: Years

Starting BirthDate:

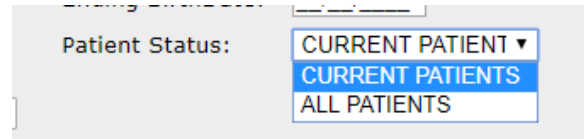

Ending BirthDate:

Patient Status: CURRENT PATIENT

* Provider: -- SELECT ONE --

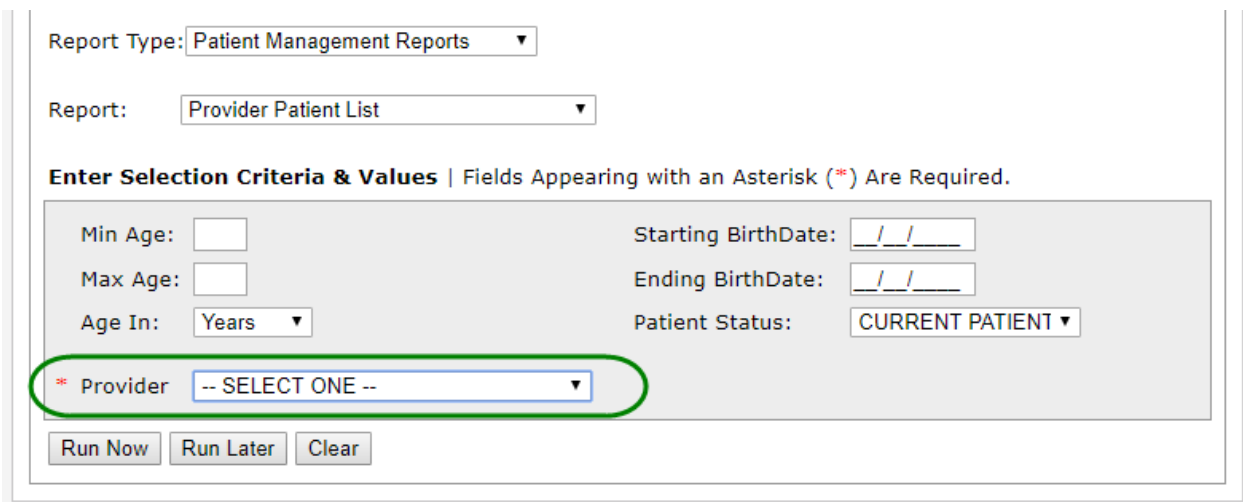

Run Now Run Later Clear

2. Enter either a minimum and maximum age (in years or months) or a birthdate range for the age group of patients you want the report to look for.
3. Select the **Patient Status** you want the report to run.
 - a. The report can be run to include only current patients (i.e. those patients that are still actively associated with your NDIIS provider ID) or all patients. If running the report for all patients, current patients as well as those who have had their status set to MOGE or Lost to Follow-Up will be included in the li

A screenshot of a web form showing a dropdown menu for 'Patient Status'. The menu is open, displaying three options: 'CURRENT PATIENT', 'CURRENT PATIENTS', and 'ALL PATIENTS'. The 'CURRENT PATIENTS' option is highlighted in blue.

4. Select your provider site from the **Provider** drop-down list.

A screenshot of a web form titled 'Patient Management Reports'. The form includes a 'Report Type' dropdown set to 'Patient Management Reports' and a 'Report' dropdown set to 'Provider Patient List'. Below these is a section titled 'Enter Selection Criteria & Values' with a note that fields with an asterisk (*) are required. This section contains several input fields: 'Min Age' and 'Max Age' (text boxes), 'Age In' (a dropdown set to 'Years'), 'Starting BirthDate' and 'Ending BirthDate' (date pickers), and 'Patient Status' (a dropdown set to 'CURRENT PATIENT'). The 'Provider' field, marked with an asterisk, is a dropdown menu currently showing '-- SELECT ONE --' and is circled in green. At the bottom of the form are three buttons: 'Run Now', 'Run Later', and 'Clear'.

5. Click *Run Now* or *Run Later* to run the report.

The completed patient list report shows the selected report criteria including provider, age range and/or birthdate range and patient status. It then lists all patients that belong to the selected provider and are within the indicated age/birthdate range. The list of patients is organized in alphabetical order by last name and then first name and includes the patient name, birthdate, last vaccination date and their NDIIS record status.
